

NAME : Zaina Afreen A P

Exercise 1: Identify the Prompt Technique

Answer: Zero-Shot Prompting

Why? No example is given and the AI is directly asked to perform the task.

Exercise 2: Prompt Recognition

Answer: One-Shot Prompting

Why? One example is provided before asking the actual question.

Exercise 3: Choose the Correct Technique

Answer: Few-Shot Prompting

Why? Multiple examples help the AI recognize patterns and maintain consistency.

Exercise 4: One-Shot Prompt Creation

Answer Prompt:

Example:

Customer: "I received a damaged product."

Response: "We sincerely apologize for the inconvenience. We will replace your product as soon as possible."

Now respond to this complaint:

Customer: "My order arrived late and I missed my event."

This is **One-Shot Prompting** because it provides exactly one example.

Exercise 5: Rewrite Using Correct Technique

Original Prompt:

"Make this sound professional: 'Send this now.'"

improved Prompt (One-Shot):

Prompt:

Example:

Casual: "Can you finish this today?"

Professional: "Could you please complete this by the end of the day?"

Now rewrite professionally:

"Send this now."

This uses **One-Shot Prompting** because one example guides the style.

Exercise 6: True or False

Answer: False

Why? Few-shot prompting is mainly useful for tasks requiring pattern learning, style consistency, or complex instructions—not simple tasks.

Exercise 7: Prompt Comparison

Answer: Prompt B

Why? It gives clear constraints (length, product type, target audience), which improves output quality.

Exercise 8: Technique Selection (Tricky)

Answer: Few-Shot Prompting

Why? Multiple examples establish a strong style pattern for consistency.

Exercise 9: Bonus Challenge

1. Simple task, no examples → **Zero-Shot Prompting**
2. One example to guide style → **One-Shot Prompting**
3. Multiple examples to train pattern → **Few-Shot Prompting**
