

CHAIN-OF-THOUGHT (CoT) PROMPTING

Exercise 1

Prompt:

"Check if 45 is divisible by 9. First explain the divisibility rule of 9, then apply it step by step, and finally give the answer."

Exercise 2

Prompt:

"Evaluate the statement 'Our ERP improves productivity.' Identify the target audience, point out missing information, decide if it is convincing, and rewrite it in a better way."

Exercise 3

Prompt:

"Analyze the feature 'Cloud-based ERP system.' First explain what cloud-based means, then list two business benefits, and conclude why it is useful."

Exercise 4

Prompt:

"Compare Excel and ERP software for a startup. List the limitations of Excel, advantages of ERP, compare them step by step, and give a final decision."

Exercise 5

Prompt:

"A company is facing delays due to manual data entry. Identify the root cause, explain how delays happen, and suggest a logical solution."

ReAct (Reason + Act) PROMPTING

Exercise 1

Prompt:

"Analyze why the statement 'Our software is good' is weak, identify what is missing, and rewrite it with better clarity and value."

Exercise 2

Prompt:

"Review the resume line 'Worked on testing.' Explain why it lacks impact, add action words, tools, or results, and rewrite it as a stronger resume bullet."

Exercise 3

Prompt:

"Evaluate the CTA 'Click here.' Explain why it is ineffective, add urgency or benefits, and rewrite it to make it stronger."

Exercise 4

Prompt:

"Analyze the email line 'We offer ERP solutions.' Identify why it is not persuasive, define the target audience, and rewrite it by adding benefits."

Exercise 5

Prompt:

"Review the bug report 'System is slow.' Analyze what details are missing, identify the required information, and rewrite it into a clear and actionable bug report."

SELF-CONSISTENCY PROMPTING

Exercise 1

Prompt:

"Write a 2-line description of ERP software. Then review your answer for clarity and value, and rewrite an improved version."

Exercise 2

Prompt:

"Answer the question 'What does ERP do?' in 3 different ways. Compare all three answers, select the best one, and refine it further."

Exercise 3

Prompt:

"Create 2 email subject lines for an ERP demo invitation. Compare both, choose the clearer one, and improve it."

Exercise 4

Prompt:

"Explain cloud computing. First write the technical explanation, review it for simplicity, and rewrite it in simpler language."

Exercise 5

Prompt:

"Explain the benefits of ERP for a manager. Write the first version, review the tone and relevance, and refine it into a better version."
